

Activity Diagrams

Swimlane Headings

Description

1. Users need to signup first, then login.
2. After users login, they can create tasks.
3. After (or during) creating tasks, users can categorize tasks into Academic or non-Academic tasks
4. After done creating tasks or Categorize tasks, users can view tasks in list of Academic or list of nonAcademic
5. Users can update any tasks (both Academic and nonAcademic tasks)
6. Users can prioritize any tasks (both Academic and nonAcademic tasks)

7. Users can manually set reminders for any tasks (both Academic and nonAcademic tasks). If not manually, reminders will be automatically set after updating tasks with deadline.
8. If users already had accounts, they can do any activities (Create, Categorize, View, Update, Prioritize, Set reminders) without following the path from create to Set reminders.
